### DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1,2,9 and 13 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by the filter device of Yamafuji et al. (2001/0020418).

3. Claims 3-8 and 10-12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

4. The remaining references listed on the PTO-892 and those cited on the PTO-1449 show art of interest.

5. Applicants' response to this Office action should also include the following editorial changes: page 3, line 27, "a adsorbent" should be "an adsorbent"; page 12, line 15, "51" should be "51a"; page 13, line 22, "canister" should be "filter"; and, on page 20, line 19, "sub-portion" should be "sub-portions".
